

PUBLIC PERFORMANCES BY STUDENTS

Any public performance by students as part of a curricular program or by a school-sponsored group shall require the approval of the building principal if the activity/event is not sponsored by the District or North Dakota High School Activities Association.

Performances shall be limited to the following venues:

1. School-sponsored events;
2. Communitywide civic or patriotic events (e.g. Veteran’s Day ceremony). Such events shall have a purpose, content, and format consistent with the district’s mission or the public performance request will be denied.
3. An event held by a nonprofit or charitable organization. Both the event and sponsoring organization shall have a purpose, content, and format consistent with the district’s mission or the public performance request will be denied.

Any performance that would unduly interfere with the regular education program shall be denied. Any request that the building principal reasonably believes will, in any way, exploit the school will be denied.

The content and format of student performances shall conform to the same standards as established for curricular material.

The Superintendent shall develop a procedure for students to opt out of performing at nonschool-sponsored events.

End of McClusky School District #19 Policy FIC Adopted: March 13, 2018
