

**WORK EXPERIENCE OPPORTUNITIES**

Wherever feasible, actual work experience will be incorporated into all vocational and technical programs. In all instances, programs providing practical work experience shall be organized and conducted solely for the purpose of providing the students with a valuable training experience.

The principal, with the advice of the particular shop or laboratory instructor, shall make the final decision on services to be performed. This shall apply whether the work to be done is for the school, a private individual, a business organization, or a civic or charitable organization.

Items produced for sale shall be limited in distribution to the campus and to nonprofit public agencies at fair market value.

Items produced for sale shall be sold at fair market value.

The District will comply will state law on school-to-work programs.
