

Policies and Procedures for 1:1 Laptop Program

McClusky-Goodrich High School

The 1:1 Laptop Program has been designed to enhance the delivery and individualism of instruction for the students using 21st Century Skills. Effective teaching and learning with laptops integrates technology into the curriculum and allows students the opportunity for “high levels of learning for all”.

1. Receiving and Returning the Laptop

1.1 Receiving the Laptop

- Laptops will be distributed by the technology coordinator during “Laptop Orientation” during the first week of school. Parents and students must sign and return copies of the following documents before receiving their laptop:
 - Laptop Policy and Procedure Form
 - McClusky-Goodrich School District Acceptable Use Policy (AUP)

1.2 Laptop Return

- Student laptops and accessories will be returned during the final week of school so they can be checked for serviceability.
- If a student leaves the McClusky-Goodrich Public School District during the year they must return their laptop on the date of withdrawal.

1.3 Check-in Fines

- If the laptop and accessories are returned with any damage, the student/parent will be responsible for any damage consistent with the District Protection Plan as listed in Section 7.
- Failure to return the laptop will result in a theft report being filed with the Sheridan County Sheriff’s Office. The student/parent may be subject to criminal prosecution or civil liability.

2. Taking Care of the Laptop

Students are responsible for the general care of the laptop they have been issued by the school. Laptops that are broken or fail to work properly need to fill out Laptop Claim reports and file them with the technology coordinator.

2.1 General Precautions

- The laptop is school property and all users will follow this policy and the Acceptable Use Policy for technology.
- Only use a clean, soft cloth to clean the screen, no cleansers of any type. Keep equipment clean. For example, DO NOT eat or drink while using the computer.
- Cords and cables must be inserted into and removed carefully from the laptop to prevent damage.
- Laptops must remain free of any writing, drawing, stickers or labels that are not the property of McClusky-Goodrich Public School.
- Do NOT attempt to remove or change the physical structure of the laptop. Examples include removing the keys, interfering with the charging port, careless use of the headphone port, and damage to the cover or plastic casing.
- Laptops must never be left in an unlocked car or any unsupervised area. If a laptop is found in an unsupervised area, it will be taken to the office and disciplinary consequences may apply.
- Do NOT leave the laptop in a place that is experiencing extreme hot or cold conditions (i.e. a car in the summer or winter).
- Students are responsible for keeping their laptop battery charged for school each day.
- Student devices will be labeled in the manner specified by the school. Devices can be identified by serial number and correlated ID tag. Students will have the same laptop for the life of the laptop.

2.2 Carrying the Laptop

- Do not walk from one location to another with an open laptop. This is applicable at school and at home.
- The school will provide a protective case for transporting the computer. The use of this case is required.

- Do not overstuff the case used to transport the laptop; extreme pressure on the laptop can cause permanent damage to the screen and other components. No books or heavy items should be placed on your laptop.

3. Using the Laptop at School

Laptops are intended for use at school each day. In addition to teacher expectations for laptop use, school messages, announcements, calendars, and schedules may be accessed using the laptop. Students must be responsible to bring their laptop to all classes unless specifically instructed NOT to do so by their teacher. The laptop is the property of the McClusky-Goodrich Public School.

3.1 Laptops Left at Home

- If students leave their laptop at home, they are responsible for getting the course work completed as if they had their laptop present. It is not the teacher's responsibility to make modifications to the lesson due to a student's lack of responsibility. If a student repeatedly leaves their laptop at home, they will be subject to appropriate disciplinary action.

3.2 Laptops Undergoing Repair

- A replacement laptop will be issued to students when their deductible has been paid. There may be a delay in getting a laptop should the school not have enough for replacement.

3.3 Charging the Laptop's Battery

- Laptops should be charged to full capacity each day before they are brought to school. Repeat violations will result in appropriate disciplinary action being taken. Charging of the laptop is the student's responsibility.
- Ensure your laptop has air circulation while charging.
- In cases where the laptop has caused batteries to become discharged, students *may* be able to connect their devices to a power outlet in class.

3.4 Screensavers/Background Photos

- Students will have the ability to customize their laptop (screen background, screensaver and lock screen). Inappropriate media may not be used as a screensaver, lock screen or background photo.
- Presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang-related symbols or pictures will result in disciplinary actions.
- Screen lock passcodes are not to be used.

3.5 Sound, Music, Games or Programs

- Sound must be muted at all times unless permission is obtained from the teacher.
- Appropriate music is allowed on the laptop. Ear bud/headphones may be used in the classroom based upon individual teacher approval.
- No games, movies or TV streaming is allowed at any time during the school day. Unauthorized game playing or inappropriate use will result in disciplinary action.

3.6 School Internet Access/Printing

- Students must connect to the HS Student network during the school day. Connecting to an alternate network, including hot spots, is not permitted. Doing this to get around the school's filter will result in disciplinary actions.

3.7 Home Internet Access/Printing

- Students are allowed to set up additional wireless networks on their laptops to use web-based services outside of the school setting. Printing at home will require a wireless printer, proper settings on the laptop, and possibly an additional app or software on your home computer/printer.

4. Managing Files & Saving Work

4.1 Saving Work

- Students may save work to the laptop on a limited basis.
- Specific projects may be uploaded to a variety of places as specified by teachers.
- Any data on the laptops will not be backed up.

- **Laptop malfunctions are not an acceptable excuse for not submitting work.**

4.2 Network Connectivity

- McClusky-Goodrich Public School makes no guarantee that their network will be up and running 100% of the time. In the rare case that the network is down, the District will not be responsible for lost or missing data.

5. Software on Laptops

5.1 Software/Apps

- The software, apps and operating system originally installed by McClusky-Goodrich Public School must remain on the laptop in usable condition and be easily accessible at all times. Trying to remove or work around software such as NetSupport may result in disciplinary action.
- From time to time the school may add software applications and operating system upgrades.

5.2 Additional Software

- Due to the nature of virus possibilities on laptops, students are not allowed to download and install programs onto the laptop. The technology coordinator will install all laptop software. Misuse of software/apps or inappropriate software/apps will result in disciplinary action.
- No gaming, TV streaming or movie apps or software is allowed on the school-issued laptop.

5.3 Inspection

- Periodic checks of laptops will be made to ensure that students have not removed required apps or installed inappropriate material.
- Students may be selected at random to provide their laptop for inspection. Laptop use and contents will be monitored remotely.

5.4 Procedure for Re-loading Software

- If there is a malfunction or other problem with the laptop, it will be restored from backup to its original state.
- The school does not accept responsibility for the loss of any software or documents deleted due to reformatting.

5.5 Software/Operating System Upgrades

- Upgraded versions of licensed software/apps and the operating system are available from time to time. Students may be required to check their laptops for periodic updates and syncing.

6. Acceptable Use

The use of McClusky-Goodrich Public School's technology resources is a privilege, not a right.
